Comprehensive, Trusted, Global Drug Information

As part of the Micromedex® Clinical Knowledge Suite Medication Management solution, Drugdex® from Truven Health Analytics™:

- Delivers complete information at the point of care
- Supports those who prescribe, order, dispense, or administer medications
- Provides strength-of-evidence recommendations and efficacy ratings for all therapeutic uses

With quick access to relevant and timely drug facts, clinicians can decrease the risk of adverse drug events and save valuable time.

With Drugdex, clinicians have the evidence they need at their fingertips to make critical decisions on FDA- and EMA-approved and non-prescription drugs.

Drugdex is fully referenced, unbiased content covering dosage, pharmacokinetics, cautions, interactions, comparative efficacy, labeled and off-label indications, and clinical applications.

BENEFITS

- Helps reduce adverse drug events at the point of need
- Enables a side-by-side comparison of drug tables
- Offers the ability to compare off-label indications

FEATURES

- Comprehensive monographs for ease of reference
- Unbiased, evidence-based information on 2,300+ drugs
- Includes EMA- and FDA-approved, OTC, and investigational drugs
- Searchable by generic or global brand name, adverse effect, or indication
- Free drug summary app for all online customers
- Strength of evidence and efficacy ratings for all therapeutic uses
- Consistent, comprehensive information covering topics such as comparative efficacy, off-label use and place in therapy

The National Institute of Health and Care Excellence (NICE) has accredited the process used by Truven Health Analytics™ to develop content used in its Micromedex® Solutions. For full details on our accreditation visit: www.nice.org.uk/accreditation

Search from any web page using the Micromedex Search Accelerator.
Our content creation processes are accredited by NICE, the National Institute for Health and Care Excellence. Our in-house Knowledge Management team of clinicians works to cut out inconsistencies and fill the gaps left by other resources, so clinicians have evidence at their fingertips to support critical decisions. Available formats include Internet, Intranet, and mobile.

Gain direct access using the Micromedex Search Accelerator and the Internet Explorer® Search Accelerator icon.
