POISINDEX System

Part of the Micromedex® Toxicology Management Solution from Truven Health Analytics™, the Micromedex® POISINDEX® System is a trusted, evidence-based resource to help identify, manage, and treat toxicological exposures.

Having instant access to critical information can save lives. Relyed upon in most of the world’s poison control centres and thousands of hospital emergency departments, POISINDEX identifies ingredient and toxic substance information on 350,000+ commercial products, chemicals, drugs, toxic plants, and animals. This resource includes information on current products as well as products that have been discontinued.

In-Depth Information When You Need It
POISINDEX links the ingredient and substance information directly to details to assist in the management of all toxic exposures, providing data on clinical effects, range of toxicity, and treatment protocols for exposure.

Other toxicity references provide high-level summary information on common exposures, but fall short when it comes to uncommon or more complex situations.

The system also delivers concise, essential toxicity data on a single screen to ensure the fastest access to vital information. Plus, it is the only system to link to additional databases, including:

- HAZARDTEXT® for incidents such as spills, leaks, fires, or explosives involving hazardous materials
- MEDITEXT® to assist in evaluating and treating acute exposures to industrial chemicals, reporting potential adverse health effects, and treating chemical release exposures

This unique feature makes POISINDEX the first choice for emergency responders.

BENEFITS

- Saves valuable time by presenting information on a single screen
- Ensures access to current, evidence-based toxicology data
- Reduces errors and enhances patient care

FEATURES

- Access to clinical effects and range-of-toxicity data
- At-a-glance product and substance identification
- Current treatment protocols for exposures
- Searchable by thousands of slang drug terms
- Updated weekly with the most up-to-date product data
ABoUT TRUVEN HEALTH ANALYTICS

Truven Health Analytics delivers unbiased information, analytic tools, benchmarks, and services to the healthcare industry. Hospitals, government agencies, employers, health plans, clinicians, pharmaceutical, and medical device companies have relied on us for almost 40 years in 5,500 hospitals. We combine our deep clinical, financial, and healthcare management expertise with innovative technology platforms and information assets to make healthcare better by collaborating with our customers to uncover and realize opportunities for improving quality, efficiency, and outcomes. With more than 2,000 employees globally, we have major offices in Ann Arbor, Mich.; Chicago; and Denver. Advantage Suite, Micromedex, ActionOI, MarketScan, and 100 Top Hospitals are registered trademarks or trademarks of Truven Health Analytics.
