

INDEX NOMINUM

BENEFITS

- Helps identify international drugs by global trade and generic names, synonyms, therapeutic category, chemical structure, CAS number, manufacturer, or country
- Contains contact information for approximately 10,000 manufacturers and distributors worldwide
- Carries global recognition as a trusted, premier pharmaceutical reference

FEATURES

- 4,584 substances and derivatives
- 12,000 synonyms
- 108,721 proprietary names from more than
- 12,000 manufacturers from 168 different countries
- CAS numbers
- Chemical structures
- Therapeutic classes
- ATC codes
- Molecular weights

An International Drug Directory

International travel is commonplace. As patients travel across continents, they may encounter unfamiliar medications or drugs that carry a different name than those prescribed locally. To be effective, you'll need an international drug directory.

Recognized worldwide, Index Nominum is an international drug directory providing access to the largest repository of substances and derivatives from 168 countries around the world.

Quickly locate information about a drug's generic name, global brand names, synonym, therapeutic category, chemical structure, CAS number, country, or manufacturer with Index Nominum.

Electronic Resource

Edited by the Swiss Pharmaceutical Society, Index Nominum provides electronic access to an international drug directory of:

- Generic substances
- Global drug trade names
- Synonyms
- Chemical formulas
- Therapeutic classes
- Manufacturer information

Easy Access to Manufacturer Information

Convenient name and address information for manufacturers across the globe enables easy identification. By entering a manufacturer name as a search term, the system will isolate and display a list of drugs handled by that specific manufacturer.

Gentamicin (Prop.INN)
 Index Nominum ⁽³⁾
 ATC: D06AG07, J01GB03, S01AA11, S02AA14, S03AA06

Therapeutic Category
 Antibacterial: Aminoglycoside

Chemical Name
 C₂ amino antibiotic complex of three different closely related aminoglycoside sulfates. Gentamicin C₁, C₂, and C₃ obtained from *Micromonospora purpurea* and related species.

CAS Number
 0001403-46-3

Structure of Gentamicin

Gentamicin	R
C1A	-CH ₂ NH ₂
C2	-CH(CH ₃)NH ₂
C3	-CH(CH ₃)NHCH ₃

Synonyms
 GB: Gentamicin (BAN)
 OS: Gentamicina (DCIT)
 OS: Gentamicone (DCIT)
 AFM Plus® (+ Fluoromethalone) Anesthalmia, ED
 Amgen® Sun Pharmaceutical, IC
 Amgen® Taro Corp, KE
 Amgen® British Pharmaceuticals, KE
