

Integrated, Evidence-Based Clinical Decision Support and Patient Education — From One Trusted Source

Consolidation of resources
= cost-savings

Context- and patient-specific
information

Quick clinical decision-making
at the point of care

Support for Meaningful Use,
HCAHPS, and quality reporting

Micromedex Integrated Evidence

- ✓ The industry's most thoroughly researched and comprehensive content available, with one subscription fee
- ✓ Relied on by 4,500+ U.S. and international hospitals
- ✓ Integrated into nearly 2,000 provider electronic health record (EHR) systems
- ✓ Updated and supported without interruption or downtime

Information is most valuable when and where clinicians need it most — at the point of care and within the clinician's workflow. That's why Micromedex® Integrated Evidence seamlessly integrates into virtually any clinical information system or EHR, supporting confident treatment decisions and delivering high-quality patient education.

The power of Micromedex. Our in-house editorial processes identify the most clinically relevant evidence available. It is aggregated, filtered, and synthesized to virtually eliminate any gaps in information. The result is information that is consistent in format, presentation, and context; and relevant, current, and uniform across the patient care continuum.

Flexible, cost-effective, and mobile. Regular upgrades, maintenance, and support are included with your single-source subscription, as are iPhone®, iPod® touch, iPad™ and Android™ apps.* And it's easy to add new evidence modules and integration options as you need them.

* Where available.

What Micromedex Integrated Evidence Includes

Evidence-based clinical decision support, part of the **Micromedex® Clinical Knowledge Suite**:

✓ **Micromedex® Medication**

Management. Fully referenced, unbiased content covering dosage, therapeutic use, cautions, comparative efficacy, approved and off-label indications, pharmacokinetics, clinical applications, as well as drug identification tools.

✓ **Drug Interactions.** Effectively manage unintended interactions and prevent adverse drug events with critical information including drug-drug, drug-food, drug-disease, drug-ethanol, drug-laboratory, drug-pregnancy, and drug-lactation interactions.

✓ **Micromedex® Disease and Condition Management.** The most current treatment-of-choice information to help clinicians minimize treatment errors, reduce treatment costs, and prevent unnecessary tests or procedures. Includes protocol checklists.

✓ **Lab Recommendations and Test Information.** Resources to support interpretation of lab results, ranges, test methodology, and more.

Micromedex® Patient Education featuring CareNotes®, part of the Micromedex® Patient Connect Suite:

✓ Accurate and current health education materials for every stage of care, including pre-care, inpatient, discharge, emergency department, ambulatory, and wellness.

Integration Options:

- EHR-ready package for your vendor(s) of choice
- Context-specific content retrieval via web services using HL7 standard APIs
- Embedded content options, including flat files for uploading to host system(s)
- Micromedex® Search Accelerator allows searching directly from multiple locations within a web browser
- Deep linking allows creation of links to various sections of Integrated Evidence, such as a specific patient education sheet, for instant access

With Micromedex Integrated Evidence, you eliminate lengthy data integration and limit maintenance costs.
