

## IMPORTANT INFORMATION

**NeoFax®**  
January 30, 2015

A review of the NeoFax® Poly-Vi-Sol® with Iron MVI Drops monograph has revealed an issue. In the Dose section of the document, Vitamin B12 is incorrectly listed as an ingredient in the formulation.

The correct table is as follows:

Poly-Vi-Sol® with Iron Multivitamin Drops	
Vitamins	Nutrient
A, IU/mL	750
D, IU/mL	400
C, mg/mL	35
E, IU/mL	5
Thiamin B 1 , mg/mL	0.5
Riboflavin B 2 , mg/mL	0.6
Niacin, mg/mL	8
B 6 , mg/mL	0.4
Minerals	
Iron*, mg/mL	10
* Ferrous sulfate heptahydrate 50 mg	

We are determining the timeline for fixing the issue and will notify you next week when the fix will be available. **In the meantime, clinicians should refer to this bulletin and not what is currently displayed in the NeoFax® product concerning the ingredients of Poly-Vi-Sol® with Iron MVI Drops.**
