MODELING STUDIES
PUBLISHED ARTICLES AND PRESENTATIONS

A Selected List

Healthcare researchers from Truven Health have an exceptionally strong record of publication in peer-reviewed journals and presentations at major conferences. Below is a select list of publications and posters related to modeling studies authored by our researchers. Author’s names in bold are Truven Health staff.

Articles

Country-specific
Presentations

Basinski CM, Lukes AS, **Miller JD, Lenhart GM, Bonafede MM**, Troeger KA. Treatment complication and reintervention rates following endometrial ablation with the novasure® system versus other global endometrial ablation modalities. Podium presentation at the 43rd Global Congress on Minimally Invasive Gynecology, Vancouver, British Columbia, Canada, November 17-21, 2014.

Bonafede M, Johnson BH, Crawley J, Hellmund R. The budget impact of lower GPA adherence in patients with chronic non-steroidal and cox-2 inhibitor use. ISPOR 16th Annual International Meeting; May 21–25, 2011; Baltimore, MD.

Kwong WJ, Özer-Stillman I, Miller JD, Haber N, Russell MW, Kavanagh S. Budget impact analysis of tapentadol immediate release (IR) for outpatient treatment of acute pain from a managed care perspective. Poster (PDAM-01) presented at the Academy of Managed Care Pharmacy (AMCP) 2009 Educational Conference, San Antonio, TX, October 7–9, 2009.

Miller JD, Denevich S, McGarry MJ, Albano MP, Caloyeras JP, Russell MW. Modeling the fiscal impact of using perflutren lipid microspheres (PLM) for follow-up echocardiographic imaging. 11th Annual European Congress of the International Society for Pharmacoeconomics and Outcomes Research (ISPOR), Athens, Greece, November 8–11, 2008.

Ganz ML, Prasad M, Yeh YC, Miller JD, Russell MW. Initial combination therapy with infliximab versus sequential DMARD monotherapy: a cost-effectiveness model based on the BeST study. 11th Annual European Congress of the International Society for Pharmacoeconomics and Outcomes Research (ISPOR), Athens, Greece, November 8–11, 2008.
